

Projections into the future

The coating of implants, a technical mastery developed for more than 30 years

MedicalGroup is a French company, which offers a unique expertise and a wide range of plasma sprayed coatings on implants intended for orthopedic, trauma, spinal and dental applications.

Packaging in clean room

MedicalGroup provides cleaning and packaging services for all types of implants, and ensures a high level of traceability throughout the manufacturing process.

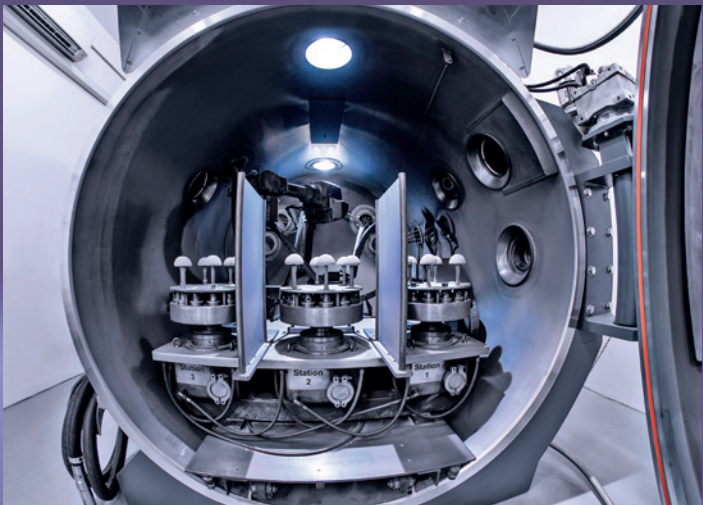

Our new industrial site, more capacity and flexibility

The company has heavily invested in a new industrial site near Lyon, designed to guarantee perfect control of the production environment and straightforward flows in spacious and bright premises. Industrial equipment and processes have undergone extensive qualifications according to international requirements and standards for implantable medical devices.

Quality and customer service at the heart of the company

MedicalGroup is ISO 13485 certified for all of its activities. We have built trustful technical and human relationships with our customers and consistently strengthened quality management and project monitoring.

Industrial performance

The industrial capacity and the organization in place make it possible to reduce manufacturing and validation lead times. We are passionate for industrial performance, meeting and exceeding customers' expectations.

OUR LABORATORIES, EXPERTISE SUPPORTING COMPLIANCE

MedicalGroup carries out all the tests required for the marketing authorization files, most of them under COFRAC accreditation.

The physics-chemistry laboratory offers all the coating validation tests. The microbiology laboratory performs bioburden, sterility and endotoxin tests, as well as packaging integrity and aging tests.

Manufacturing of Hydroxyapatite

MedicalGroup maintains exclusive know-how in the manufacture of hydroxyapatite powder in full compliance with ISO 13779-6 and ASTM F1185 standards. For dental implants, MedicalGroup manufactures and supplies resorbable blast media (RBM powder).

A passionate and committed team

MedicalGroup employees collectively and individually strive to respect diversity, act with transparency and keep their commitments.
